

Congrats on grabbing your free **book journal template!**

Here's how to use it

There are three versions of this template:

- Full-color with prompts (pretty!)
- Black and white with prompts (ink-saving)
- Black and white blank (fully customizable)

The easy, fill-in prompts help you remember details about the book. Don't like them and prefer to write your own? (I like your style.) The third page is completely blank so you can journal about whatever you like.

Print a new page for each book you read. Hole-punch the pages, pop them into a three-ring binder, and you have your very own, custom book journal.

Q: What does "format" mean?

A: Was it print or audio? Do you own the book or did you borrow it, and from where?

Questions or feedback?
